

25th Annual Developmental & Stem Cell Biology Symposium

Friday, June 3rd, 2016

9:00am – 6:00pm

Byers Auditorium, Mission Bay

9:00am	Opening Remarks
9:05-9:55am	Joanna Wysocka, PhD (Stanford) “On Peculiarities of Being a Human: Gene Regulatory Mechanisms in Human Development and Evolution”
10:00-10:50am	Kassandra Ori-McKenney, PhD (UC Davis) “Elucidating the Role of the Down Syndrome Kinase, MNB/DYRK1a, During Neuronal Morphogenesis”
10:55-11:10am	Coffee Break
11:10-12:00pm	Roeland Nusse, PhD (Stanford) “A New Perspective on Stem Cells in the Liver”
12:05-12:55pm	Helen Blau, PhD (Stanford) “Finding the Fountain of Youth Through Muscle Stem Cell Rejuvenation”
1:00-2:00pm	Free Lunch, Genentech Hall – 114
2:00-2:50pm	Martin Kampmann, PhD (UCSF) “Protein Homeostasis in Human Cells: A Function Genomics Approach”
2:55-3:45pm	Irina Conboy, PhD (UC Berkeley) “Systemic Problems”
3:50-4:00pm	Coffee Break
4:00-4:50pm	Juan Carlos Izpisua Belmonte, PhD (Salk Institute) “From in vitro to in vivo, a Quantum Jump for Regenerative Medicine”
5:00pm	Reception, Genentech Atrium
